

TRIBAL SOURCE WATER PROTECTION COLLABORATIVE WORKSHOP

for all EPA REGION 6 TRIBAL WATER SYSTEMS

Attendees of this workshop will include Tribal water system operators, Tribal Council members, Tribal land-use planners, Indian Health Services staff, Bureau of Land Management staff, Forest Service representatives, Federal facility representatives, and Environmental Finance Center staff. The goal of the workshop is to provide an opportunity for the various participants to network with each other and exchange ideas to promote the protection of drinking water supply sources through effective implementation of source water protection plans and working with strategic partners.
